Tarot cheat sheet

0	Aibo robotic dog, gadgets Pirate party, Anonymous Crowdsourcing Deep web, illegal activities, games, entertainment	Anonymous	Homelessness, welfare, housing crisis
1	FPV illegal antenna 3D printer Linux Red hat Makers, hackers, geeks	Apple, Android	Employment, unemployment
2	Wearable tech EEG devices	Nestle	sustainable agriculture, food security, food riots, world hunger
3	Petri dishes, test tubes GMOs, biotechnology, CRISPR etc.	Monsanto	marine pollution, ocean governance, water scarcity, biodiversity
4	Moore's Law Tracking QS devices, Mobile phone tower (infrastructure) Global governance	Intel	Exploitation of minerals and resources, global governance
5	Copyright, patents, power over technology, Bioterrorism Technology oversight, regulations	23andMe, Illumina	Church-State Separation, Religious freedom, Religion, cults
6	Drones Relations with robots Automation Uber, crowdsharing	Durex, Pfizer (Viagra)	Gender relations, Homophobia, LGBT issues, Materialism, Youth culture
7	Hoverboard Astronaut, satellites, space tourism Future of transportation, Tesla car Autonomous Vehicles AI moral agents	Tesla Motors, Space X	entrepreneurship, volunteerism
8	Open Data, Open Gov projects New weapons (ultrasonic) and surveillance, Databases, conflict free minerals	Foxconn, Rio Tinto	human rights, women's rights, gender equality, civil rights
9	Robots and seniors Assistive technologies Trust in technology	Alcor Life	life expectancy, ageing population, demographic transition, suicides, euthanasia
10	Ethereum, Bitcoin, Blockchain Computer viruses, Cybersecurity Economic crises	Bitcoin, Ethereum	Global catastrophe, pandemics, global recession, energy crisis, species extinction
11	Hydrogen energy	Quantified self	energy crisis, terrorism,

	Rockets Search for new materials & energy		hate crime, street violence
12	Neurotransmitters, Biological determinism Pharma industry Brain science Vaccine debates	Xanax	People with disabilities, refugees, prisoners, obesity, sweatshops
13	Nanotechnologies, Carbon nanotubes, Graphene, Cryogenics, Life extension research Mind uploading Natural disasters and wars	Alphabet Inc.	conventional weapons, landmines and small arms, war
14	Microfluidics, lab on a chip Personalized Medicine Nanopore research Open science, Responsible research & Innovation	MinION, Oxford Nanopore	Democratization, pluralism, transparency, rule of law, dictatorship, inequality, Recycling and Conservation
15	Hazmat suits, Bioweapons Tech Lobby, industrial espionage, spying optogenetics mouse x mouse with human ear Geiger counter LSD and drugs HIV and viruses	Pfizer, Novartis, Merck, Astra Zeneca	HIV/AIDS, pandemics, obesity, drug addiction, teen pregnancy
16	Pollution, radiation, toxic waste, heavy industry, Industrial disasters Nobel prize winners & ethics of science	World Bank	nuclear weapons, nuclear waste, pollution, slums, urbanization
17	Space colonization, space stations Terraforming Mining asteroids	NASA	Academic freedom, Arts, Sciences, Free Media, Censorship
18	Nuclear waste VR technologies Weapons of mass destruction	Oculus	war crimes, discrimination, state-corporate crime
19	Open source symbols Stem cells Solar energy	Linux	Child poverty, Child labour, Child abuse, Child mortality, Global Education
20	Transhumanist utopian, cyborgs Higgs bosons, Singularity, Quantum computing, CERN, AI saving/judging humanity	CERN	humanitarian crisis, human migration, displacement
21	Large Hadron collider Geoengineering UN logo, cloud computing, data centers	UN	Climate change, Adaptation to global warming, Environmental Pollution
